PROFESSIONAL APPROACH FROM START TO FINISH

From you walk into the Johanna Montgomery Designs showroom to the first time you see your kitchen fitted, the entire process will be one of pleasure and ease

With over 40 years experience in the design and manufacture of high quality kitchens our team of Johanna Montgomery, Brian O'Kane & Julie Wright provide an exceptional level of service from concept to completion. From your initial consultation through to the installation, every area of the process is managed by us, making it as easy and enjoyable as possible for you. Our brief is to give

you a kitchen which you love. We create various designs for you tailored to suit your needs and taste. Once a design has been approved by you, the manufacturing process starts. This involves numerous site visits, liaising with and managing electricians, plumbers and builders, taking the pressure off you, and ensuring the project is completed as smoothly as possible and on schedule.
